

Installing Roblox Studio

1. Open a web browser (Google Chrome, Microsoft Edge, etc.)
2. Enter “create.roblox.com” in the search bar
3. Click the “Start Creating” button in the middle of the page
4. Click the “Download Studio” button that pops up
5. Once downloaded, Roblox Studio should automatically open
 - a. If Roblox Studio does not automatically open, use your operating system’s search bar to search for “Roblox Studio” and click it to open
